DETAILED ACTION

Applicants amendment of the specification, Paper Nos: 3 and 5, 7/3/2001 and 4/3/2002, respectively is acknowledged.

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 5-10 and 24-27, drawn to an atrazine chlorohydrolase enzyme, classified in class 435, subclass 195.
- II. Claims 17 and 18, drawn to a method of purifying atrazine chlorohydrolase, classified in class 435, subclass 195.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the atrazine chlorohydrolase enzyme of Group I can be made synthetically or recombinantly and purified using columns and other reagents using other procedures other than the method of Group II, which employs the addition of ammonium sulfate.

Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification, and the literature and sequence searches required for each of the Groups are not required for another of the Groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard G Hutson whose telephone number is (703) 308-0066. The examiner can normally be reached on 7:30 am to 4:00 pm, M-F.
